

MOOD:PROFUSION iO

A completely integrated media experience.

The future is here with the powerful and affordable ProFusion iO digital media manager.

The iO provides total control over what your customers hear and see. Flexible scheduling, dual-zone audio capability, management features, and more make it the only delivery system you'll need to provide an engaging experience for your customers.

MUSIC

CREATE THE PERFECT VIBE. No other commercial media manager comes close - high-fidelity and stereo sound capability.

MESSAGING

MAXIMIZE THE MOMENT. On-site and on-hold music and messaging are seamlessly integrated to prevent abrupt interruptions.

FEATURES & BENEFITS

AUTOMATIC

EASY CONTENT MANAGEMENT. Automatic scheduling allows you to change your vibe or tempo by the minute, hour, day, week, or season-switch your content schedule at any time.

RELIABLE

FIELD AND TIME-TESTED. Mood pioneered on-premise music players with reliable, flexible software for commercial environments over a decade ago. ProFusion iO field tested, and over 100,000 devices later, remains the industry leader.

FLEXIBLE

MULTIPLE UPDATE OPTIONS. Secure Ethernet updates deliver data quickly, dramatically reducing the time it takes to receive music and message updates.

POWERFUL

MULTIPLE ZONE POSSIBILITIES. Two zones of audio, each with independent scheduling capability, create a world of possibilities. Play music in one area and a different kind in another; or connect one audio output to your phone system for music and messaging on hold.

SIMPLE

EFFORTLESS OPERATION. Onboard Webpage allows for easy adjustments to settings and shows music and messaging. Automatic dayparting and other features make the iO as hands-free as possible.

SUPERIOR PROGRAMMING FEATURES

- + Automatic content scheduling by time of day, day of week, and seasonal promotional events
- + Multi-zone capability
- + In-store message marketing; on-hold music and/or messaging
- + Seamless content interchange between audio and visual elements
