

Direct

with Wi-Fi & Bluetooth

ScentAir Direct™ with Wi-Fi & Bluetooth technology is a flexible, cloud-connected system that maximizes scent delivery with advanced atomization technology. Enterprise-class tools make it simple to manage zoned fragrances or an all-over fragrance experience from any internet-connected device.

Advanced Atomized Technology

Patented technology diffuses fragrance in a fine, invisible spray

24/7 System Monitoring

Real-time schedule visibility and offline alert notifications

Cloud-Based System Management

Control your system no matter where you are

Complete Visibility

Mobile-friendly portal accessible from any device

Device Synchronization

Multi-device and multi-location synchronization

Covers Up To 3,000 Sq Ft

Scalable for any size business
